### **BUILDINGS AND GROUNDS**

Island Catholic Schools

ELECTRICAL WORK

801

### Rationale

The Safety ct clearly states that only qualified persons can perform electrical work including minor electrical repairs. There has been some uncertainty about what constitutes minor electrical repairs and on occasion some work in this category has been carried out by unlicensed or unqualified maintenance personnel.

### Policy

Il electrical work on school property must be performed by qualified persons only

## Regulation

qualified person i e a licensed electrician may <u>without a permit</u> replace receptacles cord attachment plugs snap switches lamps dimmer switches fan speed controllers and fuses up to a maximum rating of volts with electrical equipment of a similar type or rating lectrical Safety ction Section

Other work may be carried out <u>without a permit</u> by a registered electrical contractor in accordance with the <u>ct depending</u> on the nature or the work f a permit is required the cost of the permit will usually be included in the contract price

or any other work not covered in and reference should be made to the ct

copy of the Regulation Part of the lectrical Safety ct should be on file at each school

### lectrical Maintenance Program

Schools are encouraged to develop a maintenance program where electrical work can be carried out on the cyclical basis e.g. a of florescent ballasts to be changed annually rather than change individual ballasts as needed
